 **WOODFLEX®**

# ABOUT US

Woodflex® is the industry leader in decorative wall and ceiling panels, incorporating an impressive range of flexible, rigid and acoustic options. All our products are exclusively designed and manufactured to ensure the highest standards, making Woodflex® the superior supplier in the market.

We are proud to be the preferred and approved supplier to some of the nation's leading commercial and retail brands.

Premium grade natural timber

Immediate dispatch and delivery nationwide

Fully Flexible indoor and outdoor applications

Quick and easy installation

Commercial Fire Rating Group 1  
Certification AS 5637.1

**Exclusively designed and manufactured by Woodflex®**

Our patented panels are crafted with premium grade American oak veneer and panels showcase authentic timber characteristics for a truly authentic look and feel. Fully flexible to adapt to any surface, these panels are equipped with commercial-grade acoustic polyester, significantly reducing noise and enhancing acoustic performance.

**Easy to Install**

Installation of Woodflex® is simple and makes for a straightforward DIY project or quick and hassle-free application for builders, interior decorators, architects and other designers who are looking for the perfect product to create high impact to any space.

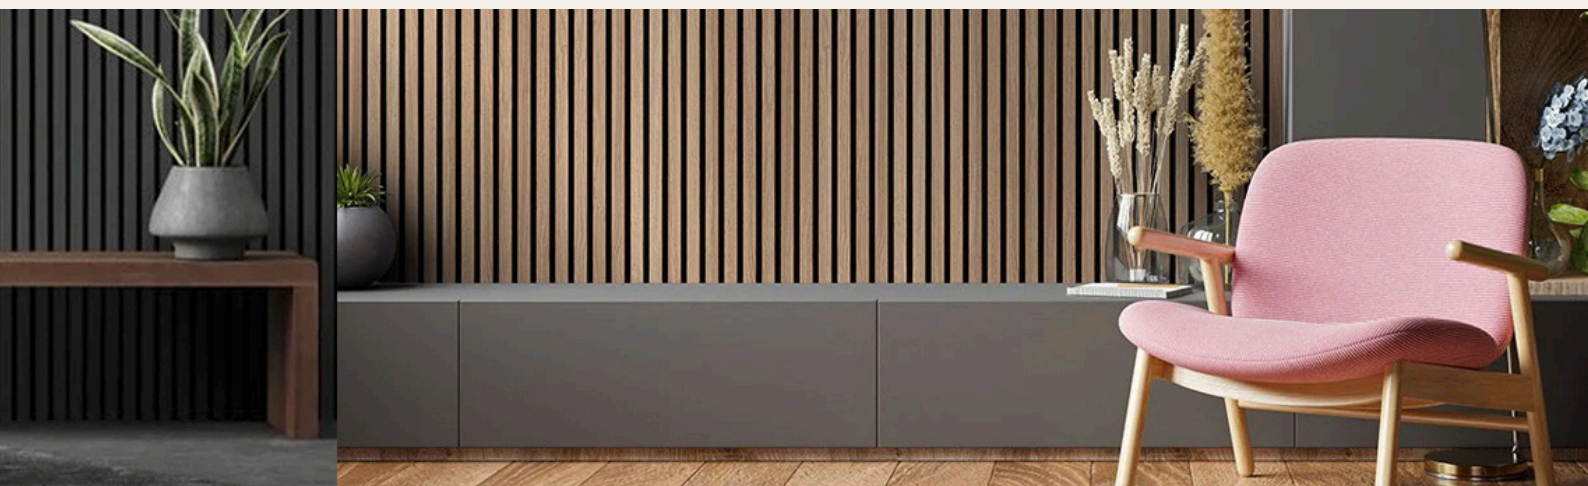

**Preferred supplier nationwide**

We are proud to be chosen as the exclusive supplier to major brand retail and commercial outlets, residential and commercial developments and government agencies nationwide.

**Authentic Australian Certification**

Woodflex® acoustic panels are the only of their kind to be formally tested and certified to meet the fire rating requirements of the Building Code of Australia (AS5637.1).

We are delighted to bring an exclusive range of both interior and exterior decorative panels to the Australian market.

## WHAT OUR CUSTOMERS ARE SAYING

Rosco, QLD

"All went up beautifully, thanks again.  
We love the colour all through the timber - edges are finished when cut.  
Easy to work with, cut and fit. Quality finish, looks fantastic!"

Helen F, VIC

"This product was excellent quality,  
easy to install and perfect to give a  
budget kitchen a high end finish.  
Would highly recommend."

Jessica H, VIC

"These panels completely changed  
the look and feel of our dining  
room. The noise has been  
significantly reduced and the space  
is warm and inviting. We love it!!"

## EXTERIOR PANELS

Woodflex® Exterior Timber Panels, crafted from premium Paulownia hardwood are designed to meet your indoor and outdoor wall and ceiling cladding needs. These lightweight, easy-to-install panels will instantly transform your design.

Paulownia timber is known for its remarkable strength-to-weight ratio making it a perfect option for applications where weight restrictions apply. The panels can be painted or stained to perfectly suit your application, providing both aesthetic appeal and commercial-grade durability.

### CLADDING
